# Committees

## Organizing Committee

Mijomir Pelemis	(Serbia)	Chair
Goran Stevanovic	(Serbia)	Secretary
Ian Gould	(UK)	
Teresita Mazzei	(Italy)	
Krassimir Metodiev	(Bulgaria)	
Kurt Naber	(Germany)	
Andrea Novelli	(Italy)	
George Petrikkos	(Greece)	
Stefania Stefani	(Italy)	

## Programme and Scientific committee:

Kurt Naber	(Germany)	Chair
Bojana Beovic	(Slovenia)	
Bruno Barsic	(Croatia)	
Milan Cizman	(Slovenia)	
Ian Gould	(UK)	
Vladimir Krcmery	(Slovakia)	
Teresita Mazzei	(Italy)	
Krassimir Metodiev	(Bulgaria)	
Andrea Novelli	(Italy)	
Milorad Pavlovic	(Serbia)	
George Petrikkos	(Greece)	
Milica Prostran	(Serbia)	
Stefania Stefani	(Italy)	
Milena Svabic Vlahovic	(Serbia)	

## Societies, supporting the conference

Association of Infectologists of Montenegro  
Bulgarian Association of Microbiologists  
Bulgarian Society of Chemotherapy  
Bulgarian Society of Infectious Diseases  
Bulgarian Society of Microbiology  
Central European Society of Tropical Medicine  
Croatian Society of Chemotherapy  
Croatian Society for Urogenital and Sexually Transmitted Infections  
Cyprus Society of Chemotherapy and Infectious Diseases  
Federation of European Societies for Chemotherapy and Infection (FESCI)  
Hellenic Society for Chemotherapy  
International Medical Association Bulgaria (IMAB)  
International Society of Chemotherapy for Infection and Cancer (ISC)  
Italian Society of Chemotherapy  
Mediterranean Society of Chemotherapy  
Romanian Society for the Study of Chemotherapeutic  
Serbian Society of Nephrology  
Society of Montenegrin Medical Doctors  
Slovakian Society of Chemotherapy  
Slovenian Society for Antimicrobial Chemotherapy  
Turkish Society for Specialists of Infectious Diseases and Clinical Microbiology (EKMUD)  
Yugoslav Society for Antimicrobial Chemotherapy

# WELCOME ADDRESS

It is a great pleasure for us to welcome you to Belgrade!

Belgrade (Beograd) is the capital of Serbia, and has a population of around 1.6 million. It is situated in South-Eastern Europe, on the Balkan Peninsula, at the confluence of the Sava and Danube rivers. It is one of the oldest cities in Europe and has, since ancient times, been a connecting point between the East and West, as well as a land of beautiful scenery and hospitable people. Belgrade is the capital of Serbian culture, education, science and economy. As a result of its tumultuous history, Belgrade has for centuries been home to many nationalities, with Serbs of the Orthodox Christian religion making up the majority of the population (90%). The official language is Serbian, while visitors from abroad can use English to communicate.

Since the establishment of the Yugoslav Society for Antimicrobial Chemotherapy (JUAH), we have made an effort within local and regional boundaries, to provide the latest information and exchange of experiences in different fields of interest, for experts dealing with diagnostic and therapeutic problems in infectious diseases.

The success of the 1st South East European Conference of Chemotherapy and Infection, focusing on regional problems in the field of chemotherapy and infections has provided an opportunity for organise this second meeting. The conference provides a unique opportunity for participants to interact, learn and impart knowledge in the areas of antimicrobial chemotherapy and infectious diseases which play such an important role in the world of medicine around our globe.

The necessity for conferences such as the South East European Conference of Chemotherapy and Infection is obvious, considering the recent developments in microbiology, infectious disease and oncology. We are faced with changes in habitual interactions between humans and microbes, including possible pandemics of respiratory infections and the emergence of new infections. Through the world, including our region, ancient and well-known infectious diseases are re-emerging, and the problem of antimicrobial resistance is still evolving. Also the problem of nosocomial infections and the rising rate of immuno - suppression remain present. As physicians, we are obligated to improve our knowledge and attempt to alter these trends through discussions, exchange of opinions and learning.

The Second South East European Conference of Chemotherapy and Infection will provide a series of expert lectures on the latest scientific discoveries, new trends and problems in public health and recent advances in clinical practice. Therefore, the conference will have an important impact on all medical workers who care for patients with infections and cancer and who are in need of antimicrobial therapy.

We welcome you all and wish you a fruitful conference and an enjoyable stay in Belgrade.

*Mijomir Pelemis*  
Mijomir Pelemis  
Chair of 2nd SEEC  
JUAH President

*Andrea Novelli*  
Andrea Novelli  
FESCI President

*Teresita Mazzei*  
Teresita Mazzei  
ISC President

*George L. Petrikkos*  
George L. Petrikkos

## Poster session I Friday

1. Susceptibility to fluoroquinolones of Escherichia coli ESBL positive isolates recovered from urine cultures in Saint George General Hospital of Chania. Marina Papadogianni, Greece
2. ICU and Treatment for Nosocomial Infection. Jacques Lundja, Democratic Republic of Congo
3. Etiology, Risk factors and Treatment of Urosepsis in Serbia. Natasa Popovic, Serbia
4. Acute Bacterial Prostatitis: How to prevent and manage Chronic Infection? Yong-Hyun Cho, Republic of Korea
5. Interesting case of dermatophytosis due to Trichophyton mentagrophytes in Saint George General Hospital of Chania. Marina Papadogianni, Greece
6. Corynebacterium amycolatum wound infection in an orthopedic patient in Saint George General Hospital of Chania. Marina Papadogianni, Greece
7. Staphylococcus aureus bloodstream infections during 2009 and 2010 in Saint George General Hospital of Chania. Marina Papadogianni, Greece
8. Resistance of Acinetobacter baumannii strains isolated from blood cultures during 2009 and 2010 in Saint George General Hospital of Chania. Marina Papadogianni, Greece
9. A rare case of blastomycosis in an immunocompromised patient. Irimi Katsarou, Greece
10. Importance of Various Anatomical Sites for Routine Screening for Colonisation with Extended-Spectrum Beta-Lactamase-Producing Enterobacteria. Lea Papst, Slovenia
11. Evidence based treatment for acute rhinosininitis. Efklidis Proimos, Greece
12. A Comparative Evaluation of Three Methods for Diagnosis of Visceral Leishmaniasis in Serbia. Zorica Dakic, Serbia
13. Presentation of 4 cases of pyomyositis treated in general hospital of Chania during one year period (March 2010 – March 2011). Michail Gkionis, Greece
14. Stevens - Johnson syndrome in a Boy with Mycoplasma Pneumoniae Pneumonia. Stella Barbis, Greece
15. Bacillus Calmette Guerin Intravesical Immunotherapy. A Rare Complication. Angeliki Damianaki, Greece
16. A Quick Resolution of Sepsis Pneumococcal Pneumonia in a Patient with Common Variable Immunodeficiency and Chronic Bronchiectasis. Evangelos Kaniaris, Greece
17. Health care associated sepsis in Intensive Care Unit Patients of Trnava University Hospital in Slovakia. Zuzana Zajacova, Slovakia
18. Common Variable Immunodeficiency (CVID) Associated gastrointestinal co infections with G.lambliia and Campylobacter j.-Case report. Nikolic Jelena, Serbia

## Poster session II Saturday

19. A Case Report: Multidrug-resistant Strain of Salmonella Typhi in Case of Typhoid Fever. Jasmina Poluga, Serbia
20. Abscess, as a Sole Manifestation of Tuberculosis of the Thyroid Gland. Vikki Krietsepi, Greece
21. Community Acquired Pneumonia in a Young Patient With Congenital Bullus Emphysema. Vikki Krietsepi, Greece
22. The frequency of adverse reaction to antituberculous drugs. Vesna Škodrić Trifunović, Serbia
23. Abscess of the spleen due to Bartonella Henselae. Miltiadis Kastanakis, Greece
24. Prevalence and antibiotic resistance of genital mycoplasma. Evangelia Ikonopoulou, Greece
25. Antibiotic Susceptibility of Staphylococcus aureus Invasive Isolates during the Period 2007-2010. Tanja Tomic, Serbia
26. Influence of cervical secretion IL-8 on the start of preterm birth. Anna Masseva, Bulgaria
27. Relaps After Achieving Sustained Virologic Response in Patients With Chronic Hepatitis C Treated With Peginterferon Alfa-2a and Ribavirin. Natasa Popovic, Serbia
28. Rotavirus Induced Seizures in Children. Stella Barbis, Greece
29. Echinococcal Disease in a 12 Year Old Child. Stella Barbis, Greece
30. Non-antibiotic associated C.Difficile Infection in a 6 year old boy. Alexandros Argyropoulos, Greece
31. Bacteria isolated from orthopaedic trauma during 2010 in Saint George General Hospital of Chania. Marina Papadogianni, Greece
32. In vitro resistance of Acinetobacter baumannii, Pseudomonas aeruginosa and Klebsiella pneumoniae clinical isolates from the ICU in Saint George General Hospital of Greece. Marina Papadogianni, Greece
33. Prevalence and susceptibility to antibiotics of Campylobacter isolates from stool cultures in Saint George General Hospital of Chania. Marina Papadogianni, Greece
34. Enterococcus isolates from inpatients' urinary tract infections and susceptibility to glycopeptides and linezolid in Saint George General Hospital of Chania. Marina Papadogianni, Greece
35. Listeria monocytogenes bacteremia and meningitis in immunocompromised adult host in Saint George General Hospital of Greece. Marina Papadogianni, Greece

## Short communications I Friday 16.40. Hall I

1. Nocardiosis: Occupational diseases in immunocompetent host ? Irini Katsarou Greece
2. Risk Factors for Colonisation with Ampicillin Resistant Enterococcus species during Hospitalization in the Intensive Care Unit. Tina Plankar Srovin, Slovenia
3. Genotypic and phenotypic characteristics of Panton-Valentine leukocidin positive methicillin-resistant Staphylococcus aureus strains isolated in Serbia. Ivana Ćirković Serbia

## Short communications II Saturday 16.00. Hall II

1. Epidemiology and Risk Factors for Extended Spectrum Beta-Lactamase-Producing Uropathogens in Patients with Urinary Tract Infection. Seung-Ju Lee, Republic of Korea
2. Pulmonary Tuberculosis with Extensive Necrosis and Cavitation in the 21st Century. Angeliki Damianaki, Greece
3. Neonatal Herpes simplex virus Infection: Implication for Surveillance System in Serbia. Aleksandra Knezevic, Serbia
